Dear Peter

Wednesbury to Brierley Hill Metro Extension

As you know I am bringing forward Portersfield scheme in Dudley town centre (an £82m mixed use scheme which will be a new gateway into the town).

I firmly believe that the key to the wholesale regeneration of Dudley Town Centre, including the development of my scheme, is the proposed Metro extension and the new bus interchange. My development is only economically viable if the physical transport links envisaged by the Metro extension are implemented, however I can confirm that I will be proceeding with my development if the Metro extension gets the go ahead.

Dudley Borough is on the verge of a renaissance that will help the West Midlands achieve its ambitions of delivering sustainable economic growth for its communities and this Metro extension is critical to that process.

Kind regards

Jeremy Knight Adams
